

quick disconnect roller
for easy cleaning
(yes, the maintenance
department will love you)

AFEZ flat aligner

The AFEZ is a fully automatic microprocessor controlled aligner which is engineered to be very fast, very accurate and very clean.

It is compatible with all standard shipping, storage and process cassettes in the industry.

This robust tool removes any risk in the wafer alignment process. The EZ guide stage and simple one push run button makes it a favorite of wafer fab operators world-wide.

H-Square manufactures AFEZ units for 75mm, 100mm, 125mm, 150mm and 200mm wafer sizes.

Please specify cassette model number(s) when placing an AFEZ order.

-  Clean open laminar flow stage design
-  +/- 1 degree of accuracy - everytime....for years. Really!
-  16 preprogrammed positions
-  Antistatic construction stage and roller
-  Class 1 cleanroom certification ships with each AFEZ

WAFER MOVERS	WAFER TRANSFERS	VACUUM WANDS	WAFER ALIGNERS	WAFER CASSETTES	WAFER ESCALATORS	WAFER PRESENTERS	CASSETTE INSERTS
WAFER PICKS	DIE HANDLING	FLAT PANEL HANDLING	HARD DISK HANDLING	BERNOULLI HANDLING	AUTOMATED LIFT CARTS	PHOTOMASK HANDLING	POD OPENERS
