

Metal Wafer Cassettes

Aluminum 300mm Bake Process Cassette

Lightweight ergonomic design minimizes weight and potential for operator fatigue.

Features SEMI standard kinematic coupling positioners and info pad.

Transfer compatible with all FOUP and FOSB carriers.

Weighs only 6.5 lbs (a standard FOUP weighs approximately 10 lbs.).

Cassette features wafer retaining lock-bar for safe transportation of wafers in a horizontal position.

MC12-25HC1

25 slot 300mm wafer cassette
12.5" height
12.0" length
15.6" width (including handles)

Wafer retaining lock bar

SSC300

All stainless steel model
Same dimensions as MC12-25HC1
For applications 350° C - 550° C

Material: T6061 Aluminum

Manufactured from welded aluminum to provide dimensional stability over time and temperature changes. The T6061 aluminum is finished with hard clear anodization (0.002"). Maximum recommended temperature usage is 350° C.
