

RSP Pod Openers

High Performance Mask Handling Products

SMIFMAN6

SMIFMAN6- RSP Pod Opener

Provides clean, easy access to photomasks in any RSP reticle storage pod cassette. The SMIFMAN6 allows the operator to manually open the pod to gain access to the inner mask cassette or tray. The SMIFMAN6 also features a clean storage area for the pod lid to be stored during operator interface and a mask pick holder. All materials are ESD safe.

H-Square offers a complete line of Mask Picks for handling any type of photomask
