

SQ21541

SQ21541-13	100mm
SQ21541-2	150mm
SQ21541-10	200mm

SQ21541 is a popular custom product manual wafer escalator line where the front guide plate is eliminated. Manual escalators lift wafers incrementally when the cassette is placed on unit. Operator slides wafer cassette h-bar side against back guide of escalator. Wafers are tilted 25° to enhance ID readability. Plastic ESD safe construction makes unit ideal for all applications. Construction materials are ESD safe and natural polypropylene and a grounding strap is provided.

Manual Wafer Escalator
